Work related injury

Somerset Highways

Incident notification 	Alert 	Information 	Toolbox Talk 
Date and time of incident:	01/04/22 12:10	Injury severity:	Minor
IN Author:	James Taylor	Potential severity:	Major
HS&W Lead:	Rachael Lee	Investigation required:	Full
Trade/company involved:	Milestone Infrastructure	Operational Disturbance:	Struck by a moving vehicle

What Happened?

Whilst undertaking safety defects works to repair a pothole on a # 30mph road, a Milestone operative had stepped through the cones protecting the worksite, turned the plate compactor and continued compacting the tarmac when the nearside mirror of a passing car struck the operative's back.

The IP suffered minor pain after the incident but did not require any further medical treatment.

Immediate Actions Taken by Project/Contract:

Works stopped and police called to the scene.

Statements from the site team were taken and a full investigation commenced.

Immediate Actions Required by Other Projects/Contracts:

Ensure sites have the correct Traffic Management arrangements in place to complete the works.

Discussion points for related sites:

Are the traffic management arrangements correct for the work activity and location?

Can the works be fully completed whilst maintaining the required safety zone?
