

Safety **Alert**

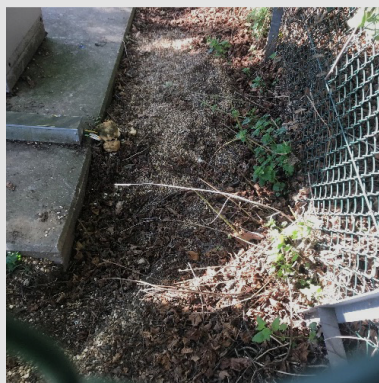

Slip Trip Fall incident resulting in RIDDOR

On the afternoon of 15th September 2022 an employee was involved in a fall whilst undertaking a build complete audit (BCQA Audit) on a Greenfield site.

The Emergency Services were contacted and the Injured Party (IP) attended the local Accident and Emergency where he was diagnosed as receiving a fracture rib, as a result, this is therefore classified as RIDDOR reportable.

The site team contacted their Build Manager and SHEQ advisor where the incident was reported onto the M Group Services reporting line and clients reporting system (JotForm).

Holes in the ground had been noted by the IP upon the first day of works and recorded in a contractors Dynamic Risk Assessment (DRA). The control measure implemented was "extra caution to be taken when moving around".

A thorough investigation is being undertaken; the following points are noted:

- Hazards had been identified but not mitigated. The IP chose to continue to work in an identified hazardous environment
- All site hazards are to be recorded through the client MBNL App (Locken App)
- DRA's are to be encouraged to be used where there may be changing circumstances from those which were planned upon in the Site Specific Risk Assessment (SSRA) and this assessment is undertaken by those undertaking the work activity in order to ensure that they implement the control measures necessary to provide an acceptable level of safety

Health and Safety at Work, Summary statistics for Great Britain 2021

Workplace Injury

142 Workers died at work in 2020/21

441,000

Workers sustaining a non-fatal injury according to self-reports from the Labour Force Survey in 2020/21

51,211

Employee non-fatal injuries reported by employers under RIDDOR in 2020/21

Estimated self-reported non-fatal injuries, 2020/21

Non-fatal injuries to employees by most common accident kinds (as reported by employers), 2020/21

102,000

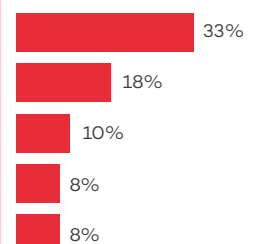

Injuries with over 7 days absence

339,000

Injuries with up to 7 days absence

Slips, trips or falls on same level
Handling, lifting or carrying
Struck by moving object
Acts of violence
Falls from a height

Estimated self-reported workplace non-fatal injury per **1,000** workers is **5,000**
