

TD RA and Work Mobile

Open App

- Do A risk Assessment
- Take pictures of Initial Site Survey before any barriers go up on "Work Location"

Start Permit/Notice

- Start a permit once RA is done and pictures are taken

Update RA

- You need to come back to TD RA and update "Protection of Works" with pictures of SLG after permit is started

Updating/Reviewing TD RA

- You can do a Daily Review if you are coming back to the same job.
- You can Update RA on the same day if something changed or you have a visitor

WorkMobile

- Civils - You still need to do BT21 to capture Excavations
- Civils - You still need to do BT23 to capture Reinstatement
- Flex - You still need to do BT Progress
- Take Pictures of SLG or Site clear at the end of the form
