Fax:		Phone:	07734 068341
Email:	Andy.White@morrisonus.com	Date Created:	23/12/2020
Date Assessment Reviewed	23/12/2020	Next Review Date:	23/12/2023
Material Code:	270838	Tradename:	RESIN PACK 9B TWINPACK
Supplier:	ALH SYSTEMS LTD	IMC:	
Keyword:	Resin	Frequency of use:	Daily
Approximately how much of the material is used by one person in one working day:	10 Liters	How many people are directly exposed?:	2-5
Are any other people put at risk from indirect exposure?:	No	How are they exposed?:	
Are there any susceptible workers?:	No	Susceptible Categories:	
Other info:		Is this material being used outside of the normal temperature range?:	No
Additional work practices:			
Existing Control measures:			
Exp Limit			

Notes

This assessment is written on the premise that the user has considered alternative methods of working according to the Hierarchy of Control under the COSHH Regulations and Carcinogens directive, and deemed them not practicable.

CONTENTS

Full details of constituents not provided by supplier, This product has been classified as per the supplier's safety data sheet,

SIGNAL WORD

DANGER

EXP LIMIT

HEALTH HAZARDS

May cause allergy or asthma symptoms or breathing difficulties if inhaled  
Causes serious eye irritation  
May cause respiratory irritation  
Causes skin irritation  
May cause an allergic skin reaction  
Suspected of causing cancer  
May cause damage to organs through prolonged or repeated exposure  
Harmful to aquatic life with long lasting effects  
May cause ill health if ingested in quantity

CONSIDERATIONS

METHODMixing

AREAA Outside

EXPOSURE TIMEUp to 1/2 hour per shift

SPILLAGE

MEDIUM ACUTE RISK - FULL EXPOSURE

MEDIUM CHRONIC RISK - FULL EXPOSURE

CONTROL MEASURES

MEDIUM ACUTE RISK - INDIVIDUAL ACTIVITY

MEDIUM CHRONIC RISK - INDIVIDUAL ACTIVITY

IMPERVIOUS OVERALLS

POLYTHENE OR NITRILE

BS EN166

AND

LEV OR

FILTER TYPE A2

WASH AFTER USE

IF SOILED

CLOSE ALL CONTAINERS

SENSITISER/ACUTE HAZARD

FIRST AID

In case of allergic reaction/anaphylactic shock call for immediate assistance from trained first aiders  
Inhalation - remove immediately from area, call medical assistance and administer oxygen in severe cases  
Ingestion - do not induce vomiting, wash out mouth with water  
If feeling unwell consult your doctor immediately  
Eye - rinse thoroughly with water for 20 minutes - take care not to affect uncontaminated eye. If irritation persists then consult a doctor  
Skin - wash with soap/cleanser and rinse with water; if irritation persists then consult a doctor

FIRE

Isolated small scale fire:  
Water - carbon dioxide - powder - foam - inert material  
Large fire: evacuate area, call fire brigade or follow site procedure  
Wear self-contained breathing apparatus and protective clothing

OTHER INFORMATION

This assessment is written on the premise that the user has considered alternative methods of working according to the Hierarchy of Control under the COSHH Regulations and Carcinogens directive, and deemed them not practicable.

CONSIDERATIONS	Answer
<div></div> Have you considered all components used in this task?	YES
<div></div> Has the elimination or substitution of this material been considered?	YES
<div></div> If available, have you considered purchasing pre-diluted or pre-mixed products?	YES
<div></div> Have you implemented the use of the engineering controls before resorting to the use of RPE?	YES

Have users been informed, instructed and trained in the use of the relevant risk control measures?

YES

Are all personnel provided with necessary RPE, suitably trained in its correct use, maintenance, and storage and been fit tested where required?

YES

Are procedures to ensure the maintenance of controls in place?

YES

Are procedures to conduct exposure monitoring in place?

YES

Are procedures to undertake skin checks in place?

YES

Are procedures to undertake lung function tests in place?

YES

Are specific records for inspection of control measures, exposure monitoring health and/or surveillance suitably maintained?

YES

Have users been informed, instructed and trained in the specific hazards for this material?

YES

Have all actions to be taken in the event of an emergency been considered?

YES

Are First Aiders trained in the specific First Aid requirements for this material?

YES
