

Installing the App

This guide is based on an Android phone. The process is similar for iPhone.

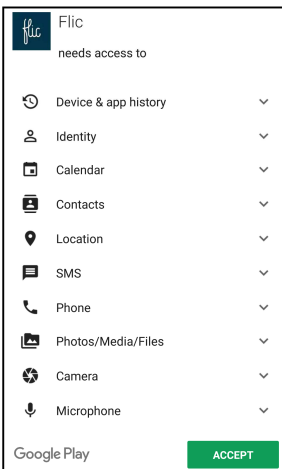

- Go to the Play Store (App Store) and search for the App called Flic.

- Once you have found the Flic app, tap the install button on the screen.

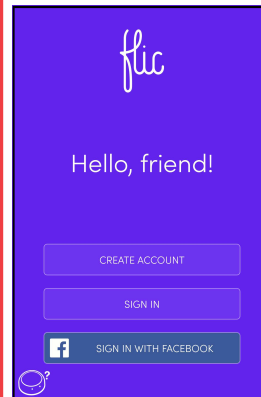

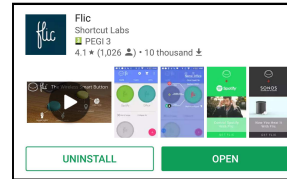

- Once the Installation begins you will see a screen similar to the one shown below.

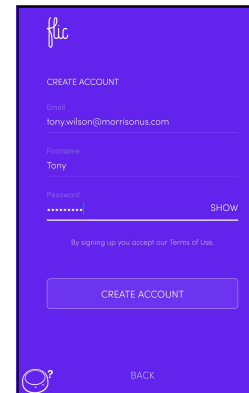

- Tap Accept to continue the installation.
- Once accepted the download of the app and the installation will begin.

Flic Setup

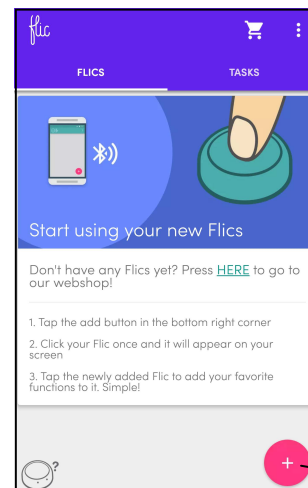

- Click the Open button once the installation is complete.
- You will now see the Opening screen of the Flic app. Tap the Create Account button in the centre of the screen.

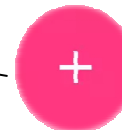

The Create Account button will open the screen below into which you need to type your email address, first name and create a password.

- Once you have entered your details, click the Create Account button.

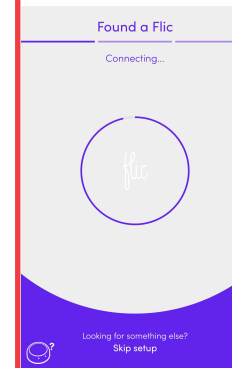

- You now need to add your Flic button to the app.
- Tap the round pink Add button in the bottom right hand corner of the app.

Flic Setup

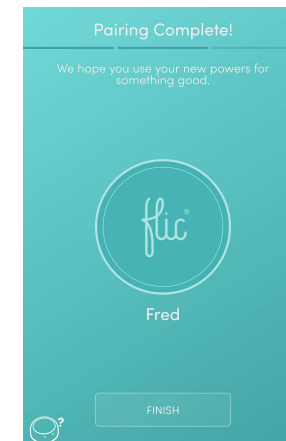

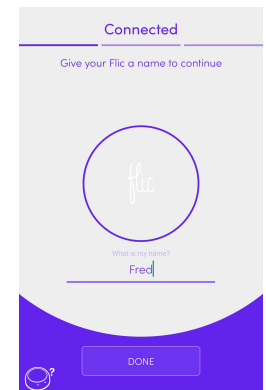

- You need to press the actual Flic button at this point so the Phone can locate the button.
- The phone and Flic connect using Bluetooth, so this is basically a pairing process at this stage.

- Once the app has found the Flic, a connection cycle will begin and will display this progress screen.

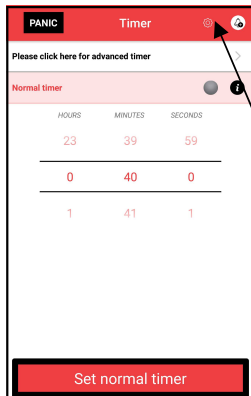

Once complete you will need to give your Flic a name.

- Once you have typed the name into the field underneath the circle, tap the Done button at the bottom of the screen.

- When the Pairing Complete screen appears, tap the Finish button at the bottom of the screen.

LoneWorker / Flic Setup

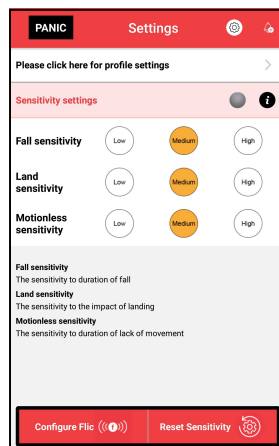

- Now that the Flic button is paired to the device, you need to open the LoneWorker app.

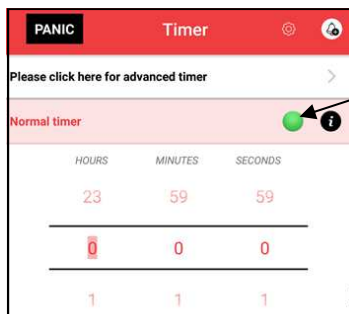

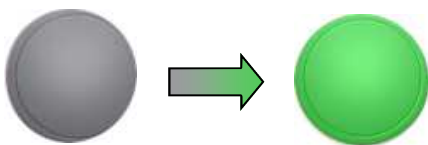

- Tap the Settings icon in the top tight hand corner of the LoneWorker app.

You will see a screen similar to the one shown below.

- Tap the Configure Flic button at the bottom of the screen.
- This will pair the LoneWorker app to the button.

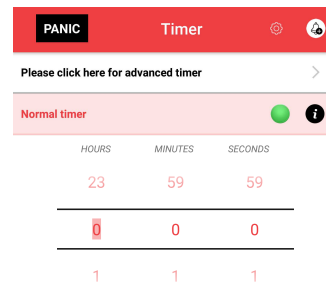

You will see a success message appear at the bottom of the screen and the Grey indicator button will turn green.

Indicator Button

Using the Flic Button

- With Flic button configured, you will always have the panic facility enabled.
- You can still use the LoneWorker app on the timer if you wish.
- You will not need to get the phone out and press the black and white panic button though.

- To raise the alarm using the Flic button, double tap the actual Flic button.
- This will activate the alarm and begin the process of contacting the MUS Incident Line

- It is a definite double tap that you need to carry out so that you don't keep setting the alarm off accidentally.

- Whilst your phone does not need to be visible, it must be with you and not left in the van..

Flic Set up Guide for the MUS LoneWorker App

This guide will take you through setting up the Flic button for your LoneWorker app.

The Flic button works as a panic button and does not require you to have the phone in your hand to activate the LoneWorker app panic alarm.

This is a very detailed guide, but as you will discover it only takes a couple of minutes to set up the Flic button.

You only need to carry out this set up process once.

You MUST LoneWorker app along with this guide for set up and connection instructions of the Flic to the LoneWorker app.

For full instructions about the MUS LoneWorker app see the LoneWorker app guide.
