To whom it may concern

Critical National Infrastructure – Key Staff

Magdalene provides essential telecommunications services to fixed, mobile and utility networks in the UK and Ireland.

The UK Government has listed telecoms networks as Critical National Infrastructure and its workers as Key Staff.

This confirms that the bearer of this letter undertakes telecoms engineering for critical network infrastructure for Magdalene.

During the COVID-19 period it is vital that we are able to maintain telecommunications services to government, schools, hospitals, emergency services, businesses and the public.

The work carried out by our employees and suppliers will be done so in compliance with government guidelines and ensure the Health and Safety of our staff and general public.

The necessity of the work can be confirmed through Magdalene's Network Operations Centre (NOC) via NOC@Magdalene.co.uk or on +44 1480 484 686.

Yours sincerely,

Mark Turner
Managing Director
