

USE OF FUEL & OIL

DO

- ✓ Always put lids on any containers after use.
- ✓ Use the automatic shut off “pistol grip” delivery systems when refuelling from tanks or mobile bowser – do not tamper with the shut off system at any time.
- ✓ Ensure that all refuelling is constantly attended and only undertaken at least 10m away from watercourses and drains.
- ✓ Clean up any minor spillages.
- ✓ Use funnels when refuelling small plant and equipment to avoid spillages.
- ✓ Use plant nappies or drip trays under all plant or equipment that contains fuel or oils.
- ✓ Ensure that a fully stocked spill kit is easily accessible at all work sites.

DISPOSAL

- ✓ Ask your manager what to do with waste oil, petrol and diesel and any materials contaminated with such substances, prior to any disposal

DON'T

- ✗ **DON'T** leave refuelling operations unattended at any time.
- ✗ **DON'T** leave containers open when unused.
- ✗ **DON'T** leave containers in an area where they can be damaged.

DISPOSAL

- ✗ **DON'T** pour petrol, diesel or waste oil down drains or gullies.
- ✗ **DON'T** try to dispose of petrol, diesel or waste oils by setting fire to them.
- ✗ **DON'T** dispose of used spill kits in general waste, place them only in a hazardous waste container.
